## C. Setup Application

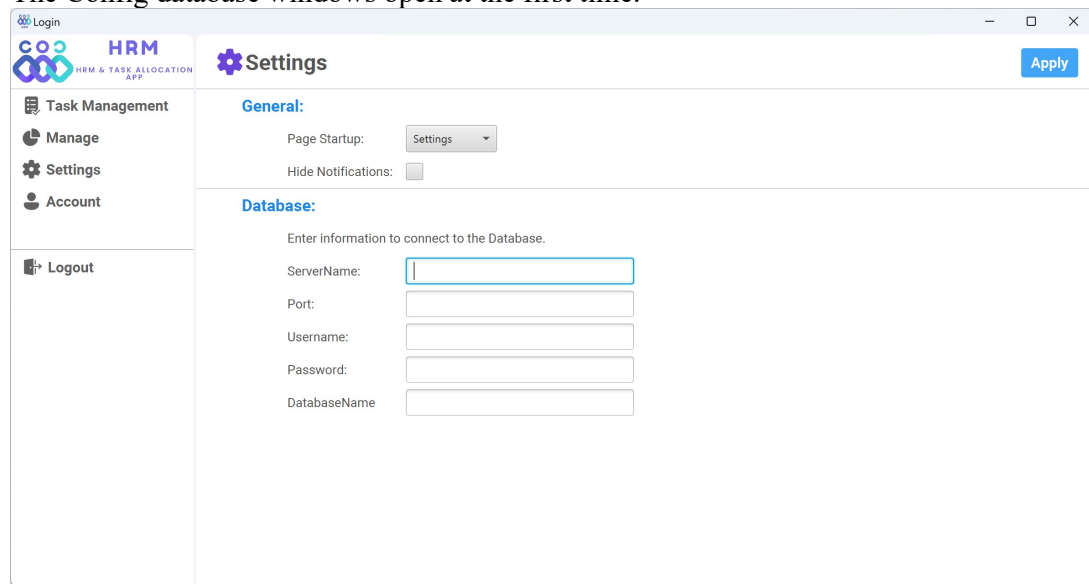

1. Copy file HRMApp.rar to your device
2. Extract file the HRMApp.rar file to the location where you want to save it.

3. Ensure the folder structure is as the same as the below image:

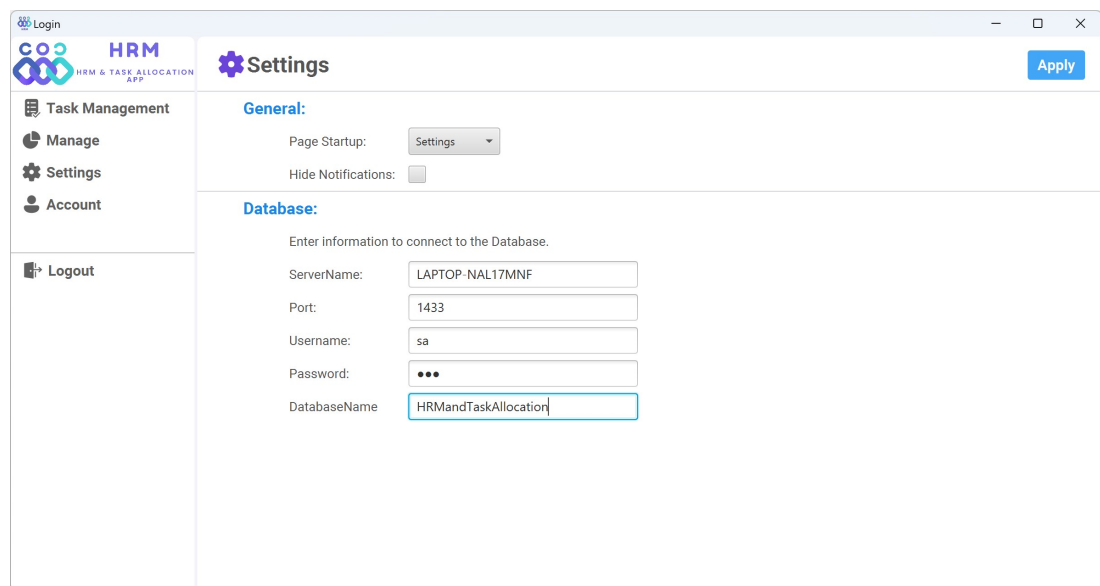

4. Run file HRMApp.jar
5. The Config database windows open at the first time.

The screenshot shows the 'Settings' window of the 'HRM & TASK ALLOCATION APP'. The left sidebar contains navigation links: 'Task Management', 'Manage', 'Settings' (active), 'Account', and 'Logout'. The main content area is titled 'Settings' and has an 'Apply' button in the top right. It is divided into two sections: 'General' and 'Database'. The 'General' section has 'Page Startup' set to 'Settings' and 'Hide Notifications' unchecked. The 'Database' section prompts the user to 'Enter information to connect to the Database.' and contains five input fields: 'ServerName', 'Port', 'Username', 'Password', and 'DatabaseName'. All fields are currently empty.

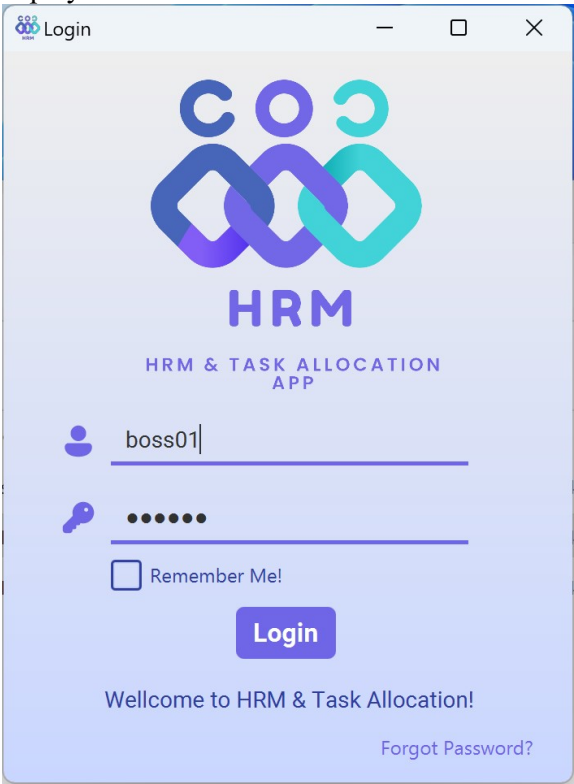

## 6. Input Information

This screenshot shows the same 'Settings' window as before, but with the database configuration fields filled out. The 'ServerName' field contains 'LAPTOP-NAL17MNF', 'Port' is '1433', 'Username' is 'sa', 'Password' is masked with three dots, and 'DatabaseName' is 'HRMandTaskAllocation'. The 'Apply' button remains in the top right corner.
